

# SI! VIVA ESPAÑA!

So you've decided to marry in Spain and want to inject some Spanish elements into your special day.

Here are just a few ideas that will give your guests something to talk about in years to come.

### Spanish Guitarist

Imagine the soft strings of the Spanish Guitar serenading your guests as they enter the ceremony area waiting for you to arrive.

Then sit back and relax at the Welcome Cocktail as you all enjoy a mixture of both relaxed and vibrant Spanish music, while sipping a glass of champagne looking out to sea.

It's the quiet moments like these that truly make you and your guests feel relaxed and submerged in the beautiful Spanish Island.

### Spanish Flamenco Dancers

Kick the party off with the energetic and poetic movements of the Spanish dancers.

The tapping of the feet on the wooden decking, the clicking of the castanets and the twirling of their many colourful Spanish dress will give you and your guests many beautiful memories of your special day.

### Canarian Dancers & musicians

There is no Canarian event without the presence of the typical Canarian Dancers with the singers and musicians.

Delight your guests with some Canarian entertainment while you have your photos taken.

It's a great way to start off the wedding celebrations and will remind you and your guests of why you decided to hold your special day on our beautiful Canarian Island

### Fans

The fan or "abanico" is synonymous with Spain and any Spanish wedding.

Arrange for a basket of fans to be available for your guests as they arrive at the ceremony area to be used to cool them down during the day.

They can be plain wooden fans or can be personalized with your names and/or made in the color theme of your day.

Not forgetting a nice white lace fan for the bride to inject a little Spanish tradition into wedding look.

### Welcome gifts

It's customary for bride and grooms to arrange a small welcome gift at the hotel when the guests arrive on the island.

Why not choose a small basket of Spanish wines and Canarian delicacies such as "mojo" sauce.

Or choose a nice ceramic souvenir of the island.

Not only will it set the scene for the whole event, but will also be something nice for them to enjoy in resort or take home with them as a souvenir.

We love to talk weddings so please contact me for many more advice and tips for arranging your wedding in Spain and the Canary Islands.
