

PICTURE PERFECT

Mette Brandt is a photographer from Norway who moved to Gran Canaria with her husband Geir, and son, in 2006.

Having always had an interest in photography, she says it surprised nobody that she turned professional. She says she's always learning, exploring new trends and techniques, she studies other photographers and reads every day as she has done for many years. A self-confessed tech freak she loves to make web sites and discover new technologies. It is people, however, who inspire her to be creative.

She has a well equipped photo studio in Puerto Rico, which she refers to as her playground, and welcomes anyone who wants to visit for a chat about photography and the art of getting just the right image. Take a look at her web page to see some examples of her work.
